

HARRY WINSTON

AVENUE SQUARED A^2

THE NEWEST ADDITION TO THE HARRY WINSTON TIMEPIECE COLLECTION
TO BE UNVEILED AT BASELWORLD 2008

.....

Harry Winston introduces the A^2 : Avenue Squared timepiece, a statement of sophistication and style. Amplified and elegant, this modern interpretation takes the brand's iconic Avenue timepiece to the power of two by exploring dualities in form and function.

The  Harry Winston Avenue Collection's signature, elongated shape is redefined with a re-proportioned, oversized squared case. Length and width are near similar in size, set in diamonds for a graphic, yet feminine feel.

This sleek, clean look ensures a full-panoramic view of the dual-time zone dial with two separate quartz movements. The two time spaces are joined within two diamond circles, forming an infinity symbol for added visual harmony.

Dual colors of the dial, for day and night, further enhance the balance and duality in design.

Iconic elegance x Modern design = A^2 of Harry Winston

.....

Harry Winston Diamond Corporation (NYSE: HWD; TSX: HW) is a specialist diamond enterprise with assets in the mining and retail segments of the diamond industry. The company supplies rough diamonds to the global market from its 40% interest in the Diavik Diamond Mine in Canada's Northwest Territories. The company's retail division, Harry Winston Inc., is a premier jewelry and timepiece retailer with salons in key locations including New York, Paris, London, Beijing, Tokyo and Beverly Hills.
