

RE-2 FLY BACK CHRONOGRAPH

First released in 2008, the RE-2 has undergone a revamp and a rebirth in 2009. Award-winning watch designer Eric Giroud has re-examined and re-worked every detail of the case to emphasize its strength and power. The RE-2 now features Rebellion's distinctive signature helice screw heads, larger diameter crown – more masculine and easier to use – plus new wedge-shaped chronograph pushers that feel as good as they look.

Even a quick glance at the RE-2 is enough to appreciate that this is not a watch to mess with. Natural rubber grips on the crown and slots in the pushers add both substance and style to the chronograph's already impressive functionality. The RE-2 demands respect – and it gets it!

The silky smooth operation of the pushers on a column-wheel chronograph has seduced many an aficionado of fine complications and this timepiece has been developed and designed to win both the hearts and minds of discerning collectors.

RE-2 Technical specifications:

Indications:

Central hours and minutes
Sub-seconds at 9 o'clock
Date in window at 1 o'clock
Central elapsed 60 seconds
Elapsed 30 minutes at 3 o'clock
