

Blancpain Saint-Valentin 2010
Ref. 0081-5560-52

February 14th 2010

BLANCPAIN “SAINT-VALENTIN 2010”

An authentic jewellery creation

For the first time in its history, Blancpain has created a special-shaped watch*. The Manufacture in Le Brassus is presenting an authentic jeweller creation set with over 500 diamonds and pink sapphires, and housing the world’s smallest self-winding movement, Calibre 615. This extraordinary timepiece is to be issued in a symbolically limited edition of 14 to celebrate Valentine’s Day 2010.

This exceptional creation is an anthem to Love and to Femininity, starting with the white and pink mother-of-pearl dial forming a heart and framed by a bezel set with over 500 diamonds and pink sapphires. A heart-cut diamond also appears at 12 o’clock, while the pin buckle is set with a pear-shaped pink sapphire.

The exquisite beauty of this exceptional two-hand watch also lies in the slenderness of its movement. Blancpain is proudly reintroducing the famous “Lady Bird” Calibre 615, still regarded as the world’s smallest self-winding movement and which can be admired through the sapphire crystal case-back.

This shaped watch is delivered with two genuine satin straps – one black and the other white. It comes in an extremely elegant presentation box featuring a design reflecting the pure lines of this dainty Valentine’s Day model crafted in a strictly limited edition of 14.

* The visual is a watercolour rendering of the model.
