

## *The New Classics Art Déco Oval Range from Frédérique Constant*

From the day our company was born, Frédérique Constant has been passionately driven to produce timepieces of immense, classic and timeless beauty; watches that are as glamorous and elegant as they are reliable and technologically advanced.

The all-new Classics Art Déco Oval range, which features no fewer than nine new models, has taken the concept of “affordable luxury,” upon which we were founded, to completely new levels, and perhaps it’s just as well. When the ladies see the spectacular design features available throughout the range, it’s quite possible they’re going to want more than one Art Déco model in their jewellery box.

### ***Unquestionably gorgeous, unfailingly reliable***

Each watch in the range is powered by the FC-200 quartz caliber movement, with seven jewels and a battery life that will give more than five years (63 months) of unrivalled accuracy. The stunning, three-part, highly polished and oval-shaped case will fit comfortably on the most petite wrist, measuring just 30mm x 25mm.

Other features shared throughout the range include the convex sapphire crystal protecting the dial, the hour and minute functions, and the wonderfully delicate guilloché decoration in the centre of the dial. And don’t be fooled by their delicate appearance; each Art Déco Oval watch is water resistant to 30 feet below sea level.

### ***Each model is a unique work of art***

Whether the lady prefers a rich, lustrous yellow gold case or highly polished stainless steel; whether she fancies carefully hand-applied, polished Arabic or Roman numerals; whether she wants the watch to be strapped to her wrist with grey satin, brown satin, yellow gold plated or stainless steel bracelets, she’ll find the features she craves throughout the new Art Déco Oval range.

Our designers held nothing back. Dials come finished in silver, with several models featuring mother of pearl inlay, and of course, we couldn’t forget a lady’s very best friend. The FC-200MPW2VD6 model comes with no fewer than 78 sparkling diamonds set into the bezel and horns.

Watches in the all-new Art Déco Oval range start at just CHF 780, a reasonable price for a hand made Swiss watch of this quality.

If you would like more information on any of the new watches in the Art Déco Oval range, please visit our website, [www.frederique-constant.com](http://www.frederique-constant.com), or you can contact us directly with your questions. Please feel free to e-mail Mrs. Yasmina Pedrini at [pedrini@frederique-constant.com](mailto:pedrini@frederique-constant.com).
