

BLANCPAIN

BLANCPAIN - Tourbillon Diamants

The innovative and exclusive Blancpain "baguette" setting is to jewellery what the tourbillon is to watchmaking.

The innovative and exclusive Blancpain "baguette" setting is to jewellery what the tourbillon is to watchmaking. Prestigious, complex and crafted by the most expert artisans, this unprecedented gem-setting technique is making a noteworthy entrance onto the watchmaking stage in conjunction with Blancpain Calibre 25A, a self-winding tourbillon movement with a 7-day power reserve. A "summit meeting" between twin peaks of Haute Horlogerie and Haute Joaillerie.
