Louis Moinet is a principal sponsor of Joel Feinberg's Primetime Racing team. The brand has found in Joel Feinberg an ideal Ambassador embodying the twin qualities of excellence and performance. Joel has inspired the creation of a new model, TWINTECH CHRONOGRAPH RACING. This highly-complex tachymeter model combines motor racing with the field of fine watchmaking through a black carbon fiber dial featuring three ultra-ligible red counters.

The dial of the TWINTECH CHRONOGRAPH RACING comprises seven different applied parts. The manual adjustment of the three counters in the outer circle is an especially tricky feat to achieve. The hands are designed to offer the best readability. The tolerance in manufacturing is counted to five hundredth of millimeter.

The extremely intricate self-winding movement comprises over 150 different parts. TWINTECH CHRONOGRAPH RACING is pleasant to wear. Our ergonomic studies enabled us to find a shape ensuring an ideal fit on the wrist. The lower sapphire crystal is also curved to ensure maximal comfort.
