

LOUIS MOINET

LOUIS MOINET - Spiroscope

The mechanical self-winding SPIROSCOPE highlights the oscillations of the balance which is visible through its added bridge. The latter is a modern version of the famous “balance-cocks” as drawn by Louis Moinet in 1848.

The mechanical self-winding SPIROSCOPE highlights the oscillations of the balance which is visible through its added bridge. The latter is a modern version of the famous “balance-cocks” as drawn by Louis Moinet in 1848.

SPIROSCOPE case is a unique creation by Louis Moinet. It combines a pure elegance with the sophistication of a hand-crafted dial opened to admire the heart of the movement.

SPIROSCOPE is equipped with an exclusive mechanical self-winding movement with 360-degree shaped rotor and protected by a ruthenium-coated protective shield. It has a nickel-free caseback and the original crown guard system (patent pending).

Movement: Automatic mechanical with semi-openworked balance

Decoration: Blued steel screws, oscillating weight and shield shaped like the “Côtes du Jura” ® motif, engraved with individual number and Louis Moinet markings

Functions: Hour, Minute, Central seconds
