A.B.ART - Serie MA

Original and discreet, a.b.art's Serie MA will captivate lovers of simple, low-key designs. Indeed, what makes the brand's models so different is the deliberate rejection of anything ostentatious and artificial. The common denominator of all the collections? A refined design, quality materials and meticulous finishing: tokens of good taste, with no false note.

It will disappear, the time,
if you don't use it
to brighten up your soul,
and you will disappear,
and there won't be a second time
for you to use it.
