

BREITLING

BREITLING - Bentley GMT «V8»

A TRIBUTE TO THE NEW BENTLEY CONTINENTAL GT V8 To celebrate the launch of the Continental GT V8 with its ultra-powerful new 4.0 V8 engine - the latest tour de force from the Bentley engineers - Breitling has created a 250-piece limited series of the Bentley GMT chronograph.

To celebrate the launch of the Continental GT V8 with its ultra-powerful new 4.0 V8 engine - the latest tour de force from the Bentley engineers - Breitling has created a 250 piece limited series of the Bentley GMT chronograph. Its signature feature is the mobile inner city bezel distinguished by a metallic red shade creating a powerful and sporting contrast with the black dial. This vivid touch of colour reflects the red background of the Bentley emblem that sets the Continental GT V8 model apart from other models by the British carmaker. The original and daring design of the steel case with its asymmetrical lugs is teamed with a bracelet or a rubber strap exclusive to this model.

A natural-born traveller, the Bentley GMT boasts an ingenious multiple timezone display system. It is equipped with a red triangular-tipped additional hour hand completing one rotation every 24 hours. The pushpiece housed in the left side of the case serves to move this hand forward in one-hour increments in order to display the second timezone - while distinguishing between day and night hours. Thanks to a rotating inner bezel bearing the names of the 24 cities, the user can also instantly read off the time in all the world's timezones in relation to that shown by the 24-hour hand.

The selfwinding chronograph movement, chronometer-certified by the COSC, offers another technical asset exclusive to the Breitling for Bentley collection: a "30-second chronograph" with a sweep seconds hand making one full turn of the dial in half a minute and thus enabling readings accurate to the nearest 1/8th of a second. With the Bentley GMT "V8", it's definitely time for performance.

////////////////////////////////////

Technical Specifications:

Movement:

Breitling Calibre 47B, officially chronometer-certified by the COSC, high-frequency, selfwinding (28,800 vibrations), 38 jewels. 1/8th second chronograph, 6-hour, 15-minute and 30-second totalizers. 24-hour 2nd timezone display. Calendar.

Case:

steel, 250-piece limited series. Water-resistant to 100 m. Screw-locked crown. Rotating pinion bezel displaying the 24 timezones. Cambered sapphire crystal, glareproofed on both sides. Diameter: 49 mm.

Dial:

Royal Ebony, metallic red inner bezel.

Strap/bracelet:

rubber GMT/Speed.
